

Dräger X-plore® 2100 Half Mask

The Dräger X-plore® 2100 is the reusable alternative to disposable dust masks. The X-plore® 2100 is the ideal solution for people working frequently in dusty environments. Its replaceable filters provide protection against solid and liquid particles. This half mask offers the perfect combination of comfort, safety and cost-effectiveness.

Benefits

Excellent tight fit

The mask body of the X-plore 2100 offers a first class tight fit with clearly reduced leakage figures compared to conventional filtering facepiece respirators.

High level of wearing comfort

Optimal wearing comfort is achieved by two available high quality materials, EPDM and silicone, in two sizes.

Comfortable Breathing Zone Climate

The exhalation valve is located at the lowest point in the mask, which helps to effectively remove exhaled moisture and perspiration.

"Drop down" harness

The mask can be removed from the face without removing head protection by simply unclasping the neck fastener. While in the drop-down position, the face-seal portion of the mask remains against the body therefore protecting against contamination.

Large-Capacity filters

During frequent and prolonged use in dusty environments the practical replaceable FMP2 and FMP3 filters protect with high filter performance and low respiratory resistance against solid and liquid particles/aerosols.

Very economical

The replaceable filters have a long service life. The easy to replace and low-cost filters make for an economic use.

Easy donning and doffing

The one-piece head harness with two adjustment points and anti-slip headgear ensure fast and trouble-free donning and doffing in addition to a very good pressure distribution.

Dräger X-plore® 1700

Breathe cool, stay safe: Dräger X-plore® 1700 makes breathing easy and comfortable. The CoolSAFE™ filter material ideally combines low breathing resistance and high filter performance in one mask. And the CoolMAX™ valve efficiently releases humid and warm exhaled air to the outside. This makes breathing particularly easy and keeps you cool under the mask.

Technical Data

Mask body	Silicone (blue) or EPDM (black)
Sizes	Dräger X-plore 2100 Silicone: small/medium (s/m) and medium/large (m/l) Dräger X-plore 2100 EPDM: universal size
Filter connector	Plug-in connector for Dräger particle filters of type 882
Weight	Approx. 110 g
Head harness	Flexible textile strap with polypropylene harness, drop-down option
Approvals	CE certified (EN 1827), NIOSH, AS/NZS
Spare parts	Available
